## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 14-22, drawn to method of identifying T-cell stimulating protein fragments and further identifying activation markers that are expressed by T-cell stimulation.

Group 2, claim(s) 23-24, drawn to method of preparing a protein fragment or peptide involving a solid phase method, liquid phase method, or by protein biosynthesis for use in identifying T-cell stimulating protein fragments and activation markers that are expressed by T-cell stimulation.

Group 3, claim(s) 25-26, drawn to method of preparing a medicament, i.e. vaccine, for use in immune stimulation.

The inventions listed as Groups 1, 2, and 3 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: each one of Groups I-III is drawn to a distinct and independent invention- the claims in Group I identify T-cell stimulating proteins and activation markers, the claims in Group II obtain and prepare protein fragments and peptides using solid phase, liquid phase, and protein biosynthesis methods, whereas the claims in Group III prepare a vaccine using purified protein obtained from the protein fragments of Group II.

2. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
